

Create softcover  
and hardcover  
books that  
**stay open**

REGULAR PAPER

Vpaper®

# Producing Next-Generation Books

Today only high-end coffee table books or photo books have the privilege to lay open nicely.

Signatures have to be sewn and mass production or expensive binding techniques are required to create a real lay-flat effect.

**Not anymore!**

*Top of the range coffee table book*

**Peleman Industries presents:  
V Paper Tower**

The V Paper Tower brings you the perfect solution that ensures that **books and publications of all kinds** stay open.

**REGULAR PAPER**

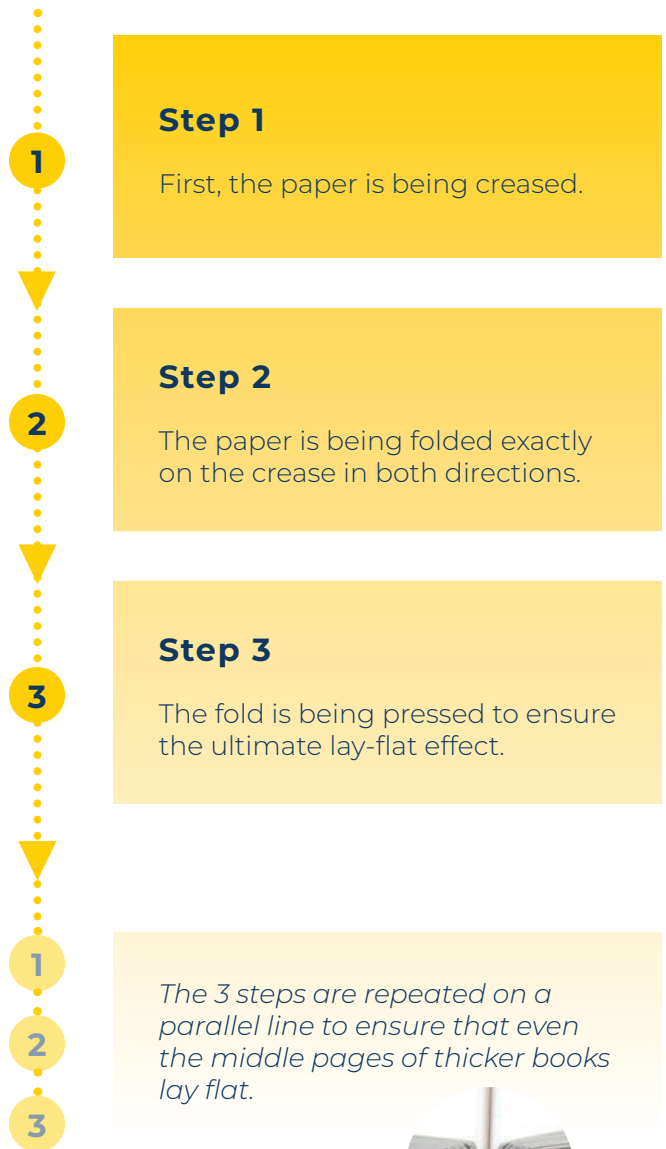

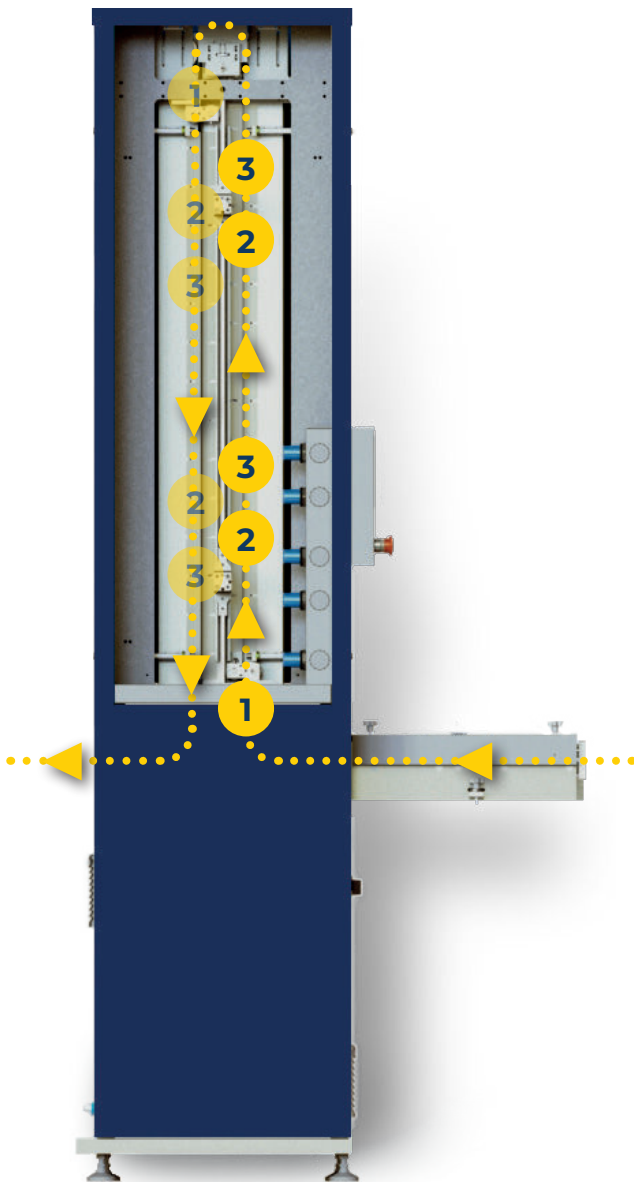

**Vpaper®**

# Introducing **V Paper Technology**

The V Paper Tower has been designed to turn your double-sided **printed or printable paper into lay-flat pages**, one by one. To ensure that every single sheet

lays open effortlessly, our new innovative technology relaxes the paper fibres through a three-step process, creating a supple hinge at the spine of the book.

The **V Paper Tower** twists the paper in 3 steps:

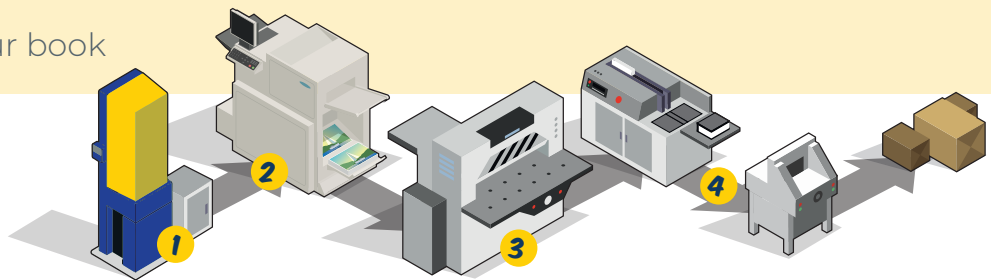

# Workflow & Technical Information

The V Paper Tower can be used on both printed and blank sheets.

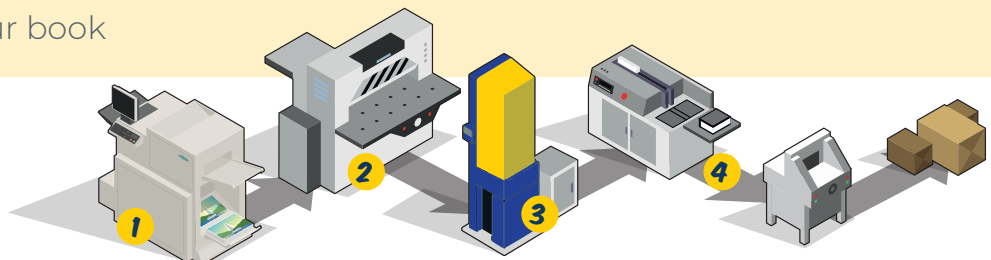

## Option 1

- 1 Run your blank paper through the **V Paper Tower**
- 2 Print on the paper
- 3 Cut sheets to size
- 4 Bind and finish your book

## Option 2

- 1 Print images on oversized paper
- 2 Cut sheets to the size of the book
- 3 Run them through the **V Paper Tower**
- 4 Bind and finish your book

## Technical information

Speed	6.000 sheets/hour
Weight per m <sup>2</sup>	min. 70g/m <sup>2</sup> , max. 250g/m <sup>2</sup> of any paper type
Paper width	min. 60mm, max. 480mm
Fold length	min. 170mm, max. 320mm
Electrical power by 220 Volt	1.000 Watt
Small footprint	L 1,2 m x W 0,8 m x H 2,5 m

No warm-up time, high efficiency

Gain a competitive edge with **V Paper Tower**

## Add value to your books and publications and capture extra business

- **Enhance the user experience** by turning any paper into pages that stay open
- **Increase efficiency:** just load the paper and collect it at the end of the process
- **Unlock your possibilities** by using it on any paper from 70 to 250 g/m<sup>2</sup>
- **Take your business to the next level** by using V Paper Tower on softcover books bound with perfect binders. V Paper eliminates the need to put pressure on the spine and as a result, the PUR glue is not mandatory
- **Stand out from the competition** by offering soft- and hardcover books and publications that stay open
- **Maximise productivity** by using the most effective way to create books that lay open effortlessly

Profitable from just  
1.500 books per month

## Contracts

- No investment costs
- Available for you through our renting programme
- Full maintenance is guaranteed through the maintenance programme
